BFA Creative Writing
BA English
BA French
BFA Graphic Design*
BA History
BA Peace Studies
BA Philosophy
BA Political Science
BA Religious Studies
BA Sociology
BA Social Work
BA Spanish
BA Strategic & Corporate Communication

*These majors are more appropriate for the fall vs. spring admission cycle

NOTE: Pending completion of units and transferable GE courses, some transfer students may be eligible to begin at Chapman as Underclassmen.

CHAPMAN TRANSFER ROUTES TRANSFER STUDENTS WILL RECEIVE ADMISSION CONSIDERATION TO CHAPMAN UNIVERSITY UNDER ONE OF TWO OPTIONS:

OPTION 1

Students with an academically strong high school transcript may want to consider transferring early on from either a two-year or four-year college/university. Applicants do not necessarily have to complete all of Chapman’s transferable general education requirements; however, some majors do have prerequisites that need to be met (see pgs. 6-7). Applicants who would have been admissible out of high school will be considered for transfer standing if he or she has a minimum of a 2.75 cumulative GPA for all completed and current college coursework.

ADVISORING OPTIONS AT CHAPMAN

An advising appointment with a Chapman admission counselor is not required for prospective transfer students, but is encouraged. An advising appointment should be conducted prior to applying for admission as it can include a review of unofficial transcripts to determine the best time to apply. Appointments can be made by calling the Office of Admission at (714) 997-6711 or (888) CU-APPLY.

During the fall and spring travel season, community college advising appointments are held at some of the local community college campuses. More information and to see when we will be visiting your community college, visit chapman.edu/admission/undergraduate/transfer-visits.aspx

OPTION 2

Students who have high school records weren’t as strong, will need one to two years of college coursework, with a recommended minimum GPA of 2.75, for transfer admission consideration. Some majors may also require stronger academics, as well as prerequisites that must be met.

Unlike public colleges and universities, Chapman University has no single set of requirements which guarantees admission to all academic majors. However, it is important to keep these points in mind:

- 4 years of high school math should be a priority for those transfer students considering transferring early from a two- or four-year college/university. Ideally, transfer applicants will have completed, or have in progress, the Shared Inquiry courses (see page 4). English and a transferable math course should either be completed, or in progress, at the point of application and should ideally be taken in a traditional in-classroom instruction format.
- If transferring from a California community college, concentration should be on the CSU/UC transferable courses that satisfy general education and competency requirements, and include preparation for the major.
- Transfers from four-year colleges/universities should follow the Shared Inquiry areas of the Chapman GE (see pages 4-5) and start in on the Chapman foreign language requirement to prepare to transfer.
- Trends in grades and patterns of college attendance are considered.
- Admitted transfer students will have access to their Chapman Transfer Credit Evaluation after the admission offer, but prior to the enrollment deposit deadline. This evaluation highlights the amount of units/credits articulated, as well as how many more general education and major related classes will be required before graduation.
- Students seeking a second bachelor's degree will be held to the Chapman’s Global Citizen Cluster, including the language requirement, if not completed within the first degree (see page 5). Candidates for a second degree are not eligible for federal funding and/or merit/skill based scholarships.

VISIT US:

Campus Tours are typically available weekdays at 10 a.m. and 2 p.m. For more information and to register, visit chapman.edu/admission/undergraduate/visit.aspx

Open House is hosted annually in the fall for prospective undergraduate students, as well as their family and friends. For more information and to sign up, go to chapman.edu/admission/undergraduate/discover-chapman-day.aspx
Regardless of the number of units/credits accepted by Chapman, a minimum of 48 units must be completed on Chapman’s campus to satisfy the majority of the Chapman General Education.

### Shared Inquiry Courses (18-19 Semester Credits)

#### I. Artistic Inquiry (3 semester credits)
- Provides students the opportunity to explore various areas typically found under the Fine Arts such as: Art History, Creative Writing Design, Drawing, History of Film, Intro. to Music, Intro. to Theatre, Literature, Music History, Painting

#### II. Quantitative Inquiry (3 semester credits)
- Provides students the opportunity to investigate university level mathematical courses such as: Business Calculus, Math Calculus, Mathematical Statistics, Statistics for Behavioral Sciences

#### III. Natural Science Inquiry (3-4 semester credits, one lab is required)
- Some applicants to the Arts, Humanities and Social Sciences academic majors can take: College Algebra, Math for Liberal Arts Majors, Pre-Calculus

#### IV. Social Inquiry (3 semester credits)
- Provides students the opportunity to be exposed to the scientific method of experimentation and/or research in courses such as: Anatomy, Anthropology, Biology, Chemistry, Environmental Science, Forensics, Genetics, Geology, Human Nutrition, Intro. to Food Science & Nutrition, Intro. to Physical Sciences, Marine Science/Geography, Physics, Physiology

#### V. Values and Ethical Inquiry (3 semester credits)
- Provides students the opportunity to experience values and ethical perspectives in humanistic, aesthetic, religious and/or philosophical contexts in courses such as: Cultural Anthropology, Economics, Ethnic Studies History, Peace Studies, Political Science, Psychology, Sociology

#### VI. Written Inquiry (3 semester credits)
- Provides students the opportunity to encounter an intensive course in academic writing at the first year or intermediate level in courses such as: Composition, Rhetoric & Writing, Writing about Literature

### Exploration Clusters (27 Semester Credits)

#### Freshman Foundation Course
- Waived for transfer students with 15 or more transferable units
- Students complete a minimum of 4 classes (min. of 2 classes must be upper division) in a selected course cluster outside their designated degree program or major. Transfer credit directly equivalent to a Chapman course can be accepted in this requirement. Students who complete a second major or minor fulfill this part of the GE program. Students may select from a list of approved clusters at chapman.edu/multidisciplinary-cluster
- Students entering Chapman with their CSU and/or IGETC full certification must select two courses from up to 2 lower division courses in the selected cluster, but will need to complete the upper division courses in their selected cluster at Chapman.

#### Inter/Multidisciplinary Cluster
- (min. of 12 semester credits, min. 6 credits must be upper division)

- Students select two courses from across the curriculum that allow them to explore the diversity inherent in our social and natural environments, including human diversity and world cultures in such areas as: Cross Cultural Psychology, Cultural Anthropology, Native American Studies, Peace Studies, Study Abroad or International Travel Course, World Religions

#### Global Citizen Cluster
- (Total 12 semester credits)

- Students select a course that focuses on citizenship, community, or service in such areas as: Leadership and Team Development, Social Problems, Cultural Anthropology, Native American Studies

#### Language Study
- (3 credits)
- Students will take one semester of an approved foreign language course at or above the 200 level. Non-native speakers may be able to test out of the language requirement. Credit can be given to a college equivalent language course or a passing AP/IB score. Transfer students can complete the language requirement prior to transferring.

CHAPMAN UNIVERSITY

FINANCING YOUR EDUCATION

Scholarships, Financial Aid & Financing

Approximately 86 percent of Chapman students receive some form of financial aid, either through scholarships, grants, loans, or on-campus work study. While the greater majority of financial aid is need-based, need-blind merit and department scholarships are also available in recognition of outstanding academic excellence or outstanding talent in the areas of art, dance, music, theatre, and writing.

Merit/Academic Scholarships are meritonly and are reserved for our most qualified transfer students. Students will be considered for merit scholarships based on their GPA, progression of general education, quality of their college curriculum and past and current grade patterns. Students do not apply separately for these scholarships. If applying on time, transfers are automatically considered for merit scholarships. In addition to the considerations listed above, award of a merit scholarship is at the discretion of the admission committee. Notification of a merit scholarship will be included within the admission packet.

Departmental/talent scholarships are also available to deserving transfer students. When students apply to any major within art, dance, music, or theatre, they are automatically considered for potential scholarship opportunities. Each department has a different set of criteria, which can be found on their respective websites. Departmental/talent scholarships are at the discretion of the specific department and can be based on a variety of factors.

International students are considered for both merit and talent based scholarships. Applicants interested in financial aid for either the fall or spring semesters must submit the following forms by March 2 for full financial aid eligibility:

- Free Application for Federal Student Aid (FAFSA) chapman.edu/financial-aid
- Chapman’s Title IV code: 001164 for the FAFSA
- Cal Grant Verification Form (for California Residents only)

Paying for Chapman University

- Aid includes need-based grants, merit scholarship, departmental scholarships, low interest loans, and work study.
- The university offers a 10 installment payment plan.

MEET LUIS: A RECENT CU TRANSFER GRADUATE

Luis Genis ’15 transferred to Chapman University to turn on the faucet, so to speak. The first generation college student recently earned his degree in Environmental Science and Policy.

In his transfer university search, Genis wanted to find somewhere that could connect him to not just the education he needed, but also to the hands-on experience he wanted. His education had to be a little bit different in order to make a difference. Chapman offered just that combination.

One of the things Genis said set Chapman apart was the work – there was more, but more of it mattered. With that work came opportunity.

“Chapman opened a lot of doors for me,” Genis said.

In addition to a full load of classes, he was able to get an internship at the Irvine Ranch Water District. It taught him firsthand the serious world of water management. Once he got his degree, two things happened almost simultaneously: He got a job and he decided to volunteer internationally.

On the day he graduated from Chapman, his internship turned into a hired position as a Water Use Efficiency Specialist, a position that has him on heavy rotation doing local water audits in California’s drought.

He took a week off from that busy schedule to travel to South America with Global Water Brigades, installing a 10,000 gallon, clean drinking water system in rural Honduras.

Next, he’s taking his degree on a two-year trip: He’ll join the Peace Corps this fall and will be stationed in Nicaragua to bring clean water to villages there and educate children on clean water needs.

It’s a path less traveled for grads, but Genis wants to make sure his road continues to be different.

He’s looking forward to working in another country – after completing his transfer and his degree, he welcomes a new challenge. Plus, he’s excited to teach.

“I love working with kids,” Genis says.

Genis, a Santa Ana native, said at times he felt the shock of transplanting mid-way through an education. The world of a four-year university moves with its own rhythm, one that is more fast-paced. He’s got some advice for future students thinking of making the same leap he did, the first piece of which is to not be scared.

“When you transfer in, you’re going to get a culture shock. Always ask for help – your professors want you to succeed. Make friends, get involved,” Genis says.

Anything else?

“Study hard.”

Luis Genis ’15
