

Current and Past Community Partners

Each of these community agencies has, in the past, met University insurance requirements developed with the offices of Legal Affairs and Risk Management. Because community partners need to renew insurance coverage for volunteers annually, it is important to confirm the current status of their partnership. The most recent Certificate of Insurance for each agency can be found in Risk Management's COI database (contact risk@chapman.edu for more information).

Other questions for academic service-learning should be directed to Nina Lenoir (lenoir@chapman.edu), Vice Provost of Undergraduate Education.
