FILM DISCUSSION SERIES

Fixed: The Science/Fiction of Human Enhancement

Tuesday, October 10, 2023 | 11:30a.m.

Join FFC 100 Health Equity, Disability, and Global Humanitarianism for a discussion moderated by Professor Art Blaser's students

Fixed, a documentary, questions commonly held beliefs about disability and normalcy by exploring technologies that promise to change our bodies and mind forever. Through the perspectives of five people with disabilities: a scientist, journalist, disability justice educator, bionics engineer and exoskeleton test pilot, FIXED takes a close look at the implications of emerging human enhancement technologies for the future of humanity.

Discussion: Virtual
