What is the Panther Professional Development Program?

Career Readiness Competencies

The National Association of Colleges and Employers (NACE) identified Career Readiness Competencies or skills that employers find critical for successful candidates:

Communication | Critical Thinking | Career and Self-Development | Professionalism | Leadership | Teamwork | Technology

On-Campus Employment

The Panther Professional Development Program integrates the Career Readiness Competencies into on-campus student employment, ensuring the opportunity for students to develop these core competencies.

This will help transform them into competitive job candidates by leveraging their on-campus work experience and skills for other internships and post-graduation opportunities.
