

DON'T WASTE A DROP

DORM ROOM

Don't use your toilet as a trash bin and save as many as

600

gallons a month!

Shortening your shower by even 2 minutes can save up to

700

gallons a month!

It takes

108

pounds of water for a pound of wheat. Skip the sandwiches a few days a week and stick with fruits and veggies!

Report your leaky faucets and save up to

20

gallons for every leak stopped!

1,799

gallons of water are needed to produce a pound of beef. Give up red meat for one meal a day and save water.

CHAPMAN UNIVERSITY

DON'T WASTE A DROP

KITCHEN

Cook food in as little water as possible. This also helps to retain the nutrients.

When washing dishes, don't let the water run. Fill one basin with wash water and the other with rinse water

It takes

108

pounds of water for a pound of wheat. Skip the sandwiches a few days a week and stick with fruits and veggies!

Wash fruits and vegetables in a pan instead of running water over them from the tap

Collect the water you use while washing fruits and veggies and use the water for house plants.

TIPS FOR...

GENERAL CAMPUS

Report leaks

When ice cubes are left over from your drink, don't throw them out or pour them over a plant

Report a leaky faucet or toilet and save 20 gallons for every leak reported

Scrape dishes rather than rinsing them

Use your garbage disposal sparingly!

Scrape plates into the compost or waste bin instead.

Wash lab ware in basins, in full loads, or without continuous water flow

WHERE YOU LIVE

Only run dishwashers and washing machines when they are full

Shorten your shower by two minutes and save up to 700 gallons a month

Cook food in as little water as possible. This also helps to retain the nutrients.

When washing dishes, don't let the water run. Fill one basin with wash water and the other with rinse water

Wash fruits and vegetables in a pan instead of running water over them from the tap

Collect the water you use while washing fruits and veggies and use the water for house plants.
