The primary vision for MUSCO CENTER FOR THE ARTS is to create extraordinary learning and performing opportunities for students in Chapman University’s acclaimed College of Performing Arts. Designed by renowned architects Pfeiffer Partners, with acoustics tuned by Nagata Acoustics, Musco Center for the Arts will provide a professional-caliber venue for students, both on stage and behind the scenes, to hone their talents and prepare for a life and career in the arts.

Beyond enhancing the educational experience of our students, MUSCO CENTER FOR THE ARTS will also serve the community, as it will be used for lectures, festivals, global video streaming of performances and professional entertainment, when not in use by the University.
