## CTC-ASHA Alignment Matrix

Adopted by the Committee on Accreditation, May 2020

An institution that is offering a Speech-Language Pathology Services preparation program which is accredited by the American Speech-Language-Hearing Association (ASHA) may elect to use ASHA's standards for California accreditation activities. In addition to meeting ASHA's standards, each California SLP program must indicate where the underlined concepts are addressed in the approved SLP program.

As an accredited program, the Communication Sciences and Disorders (CSD) program fully meets all of the ASHA standards. On the right side of this table (below), we have provided content from course syllabi as it applies to the underlined concepts from the standards description.

<p><b>Program Design (PD) Standard 1: Program Design, Rationale and Coordination</b></p> <p>Each program of professional preparation is coordinated effectively in accordance with a cohesive design and sound <u>evidence-based practices relevant to the contemporary conditions of schools</u>. The design must reflect the <u>full range of service delivery options, including general education, and the knowledge and skills to meet the needs of students</u> in the specific areas authorized by the credential. The program has an organizational structure that forms a <u>logical sequence between the instructional components and fieldwork</u>, and that provides for coordination of the components of the program. The program describes a plan that allows for multiple points of entry.</p>	<p><b><u>Fall – 1<sup>st</sup> year</u></b></p> <ul style="list-style-type: none"> <li><input type="checkbox"/> CSD 500 – Research Methods</li> <li><input type="checkbox"/> CSD 501- Articulation and Phonology</li> </ul> <p><b><u>Fall – 2<sup>nd</sup> year</u></b></p> <ul style="list-style-type: none"> <li><input type="checkbox"/> CSD 509 – School-Based Issues</li> </ul>
