Why I chose the MLD program . . .

Finding the Masters of Leadership Development was like finding a long lost pair of Rainbows, the moment you put them on you know they have always been yours! The MLD fit just right and felt so good! (haha this one is just me being silly)

The Masters of Leadership Development at Chapman University satisfied my purpose of making a difference in this world while providing me the skills to find my path and help me grow into my potential as the change-making leader I am! I could not have chosen a better program even if I had designed it myself. Not only has the Masters in Leadership Development allowed me the space to grow and be challenged as an individual, it has provided me with the skills I need to make my dreams become a practical reality. Because of the Masters of Leadership Development, I know that I will make a difference and fulfill my purpose of being the biggest contribution to our society that I can be.

I feel so fortunate to have found this program as it has far exceeded any expectation I ever had of what Graduate School could be. The Masters of Leadership Development has helped me immeasurably as I continue on my journey of making a difference in this world. The MLD has not only provided me with a quality education in the fields of Leadership, Organizations, Democracy, Equity, Education and Culture, but has fostered my growth and development in becoming the person, leader, and change-maker I am meant to be. Although my time in the program is coming to an end, I know that this is only the beginning.

Emma Johnston

CHAPMAN UNIVERSITY | COLLEGE OF EDUCATIONAL STUDIES | 2015

MISSION STATEMENT
To generate, empower and sustain authentic leadership through collaboration, creative ideas and healthy practices. To inspire equitable, just and inclusive social change, locally and globally.
