

Protect your hearing: Discounts through Healthy Rewards

OFFERED
THROUGH

Healthy Rewards® offers discounted access to these cutting-edge hearing protection solutions as well as traditional options, helping you stay proactive about your hearing health while saving money.

Why hearing protection is important.

Sounds above 85 dB can cause damage with prolonged exposure.¹

Normal conversation: 60–70 dB

Lawnmower: 80–100 dB

Concerts: 94–110 dB

Fireworks: 140–160 dB

Unlike passive earplugs that simply block sound and reduce awareness, Phantom and Shield use digital technology to enhance important sounds so you can stay fully present while staying protected.
