## EDUCATIONAL AND PROFESSIONAL HISTORY

### Education

Dates attended	Institution	Field of study	Degree/ training obtained	Date degree awarded
2010-2014	Faculty of Pharmacy and Pharmaceutical Sciences, Monash University, Australia	Social and Administrative Pharmacy	Ph.D.	2014
2005-2008	Faculty of Pharmacy and Pharmaceutical Sciences, Monash University, Australia	Pharmacy	B.Pharm (Hons)	2008

### Licensure

Pharmacy Board of Australia - Practicing Pharmacist

### Professional Positions

2015 – current	Assistant Professor Social and Administrative Sciences, Department of Biomedical and Pharmaceutical Sciences, School of Pharmacy, Chapman University, Irvine, CA
2014 - 2015	Postdoctoral research fellow, Department of Clinical, Social & Administrative Sciences, College of Pharmacy, University of Michigan, Ann Arbor, MI
2009 - 2014	Community pharmacist, Terry White Chemists, Gladstone Park, Victoria, Australia
2012 - 2014	Hospital pharmacist, Werribee Mercy Hospital, Werribee, Victoria, Australia
2008 – 2010	Hospital pharmacist, Melbourne Health, Parkville, Victoria, Australia
2005 – 2009	Pharmacy technician, Terry White Chemists, Gladstone Park, Victoria, Australia

- 2008 Pharmacy internship (1 month), Alfred Hospital (major trauma center), Prahran, Victoria, Australia
- 2008 Pharmacy internship (1 month), Amcal Pharmacy (rural community pharmacy), Benalla, Victoria, Australia
- 2007 Pharmacy internship (1 month), Prentis pharmacy (community pharmacy), London, UK
- 2006 Pharmacy internship (1 month), Royal Children's Hospital, Parkville, Victoria, Australia

## **Recognition**

### **Awards**

- 2011 Australasian Pharmaceutical Science Association Best Speaker Award (honorable mention)
- 2011 Department three-minute thesis, prize winner, Monash University
- 2010 Monash University and the University of Nottingham Research Alliance Grant (Collaboration with Prof Claire Anderson and Dr. Helen Boardman. Two-month visit to the University of Nottingham, UK to undertake work as part of my PhD project)
- 2010 Postgraduate Research Scholarship: Australian Postgraduate Award

## **TEACHING EXPERIENCE**

### **University of Michigan (teaching instructor)**

- Fall 2014 Patient Care and Communication (P506)  
Demonstrated strong lecture and discussion facilitation skills covering themes of effective patient communication including motivational interviewing, the Indian Health Model, cultural awareness and health literacy. From this course, I have gained knowledge of a variety of teaching methods including lectures, small group discussion, flipped classroom methods, student-to-student learning, and group projects.
- Fall 2014 Patient Care and Communication (P506) – Medical terminology  
This unit was a self-study module included in the P506 course. I helped coordinate the unit and was responsible for designing and distributing the assessments. From this course I have gained experiences in facilitating online learning and designing and marking assessments.

### **Monash University, Victoria, Australia (teaching instructor)**

- 2010 – 2013 Pharmacy intern teaching instructor  
Involved in teaching intern pharmacists regarding all aspects of clinical pharmacy practice including safe dispensing, counseling, over-the-counter formulations, pharmacy law and therapeutic drug monitoring. Teaching involved small group discussions, case scenarios and simulated patient assessments.
- 2010- 2013 Graduate student instructor  
Demonstrated strong lecture and facilitation discussion skills in areas of pharmacy

communication, health systems pharmacy, therapeutics, dispensing skills, manufacturing, community pharmacy and hospital pharmacy. Responsible for teaching small groups (20 – 40 students) in computer dispensing labs (Mydispense program), facilitating Objective Structured Clinical Examinations (OSCEs), basic manufacturing labs, leading therapeutic case scenario discussions, marking unit examinations and assessing oral presentations.

The following is a list of units that I have taught:

PAC1311 - Pharmacy, health and society I

This unit aimed to introduce students to a range of topics relevant to the practice of pharmacy (The Health Care System, The Pharmacist and The Patient), to develop communication skills and to develop students' dispensing skills and knowledge. This course enhanced my skills in the Mydispense program and my ability to facilitate group discussions using advanced technology.

PAC1322 - Pharmacy, health and society II

This unit aimed to build on PAC1311 and to also introduce different aspects of human psychology and human behavior. I was responsible for delivering three traditional large group lectures and to develop and grade exam questions.

PAC4371 Professional experience placement program

As an instructor for this unit, I was responsible for facilitating small group discussions following students' professional pharmacy practice placements (hospital pharmacy, retail pharmacy, rural pharmacy or pharmacy abroad). This course aimed to enhance students' knowledge and understanding of a range of topics relevant to the practice of pharmacy and to apply their knowledge and skills under supervision in various practice settings through the Professional Experience (PEP) Program.

PAC4482 Preparation for practice

This unit was predominantly conducted through group project work to provide the necessary skills for continued professional development, improve oral and written communication and literature search and evaluation skills. I was responsible for moderating online discussion groups on complex patient care, critiquing and evaluating literature reviews and assessing small group oral presentations. This course allowed me to use research skills I had gained in my PhD to provide comprehensive feedback on students' literature reviews.

PAC2412 Integrated therapeutics: Introduction and cardiovascular

PAC3442 Integrated therapeutics respiratory and gastrointestinal disease

PAC3432 Integrated therapeutics: Infectious diseases

PAC4441 Integrated therapeutics: Endocrinology and renal

PAC4451 Integrated therapeutics: Dermatology and pain

PAC4462 Integrated therapeutics: Neurology and oncology

The above-integrated therapeutic units are taught to pharmacy students in their second, third and fourth years. These units aimed to teach the foundations on disease management and the rationale behind drug choices. I was responsible for moderating the labs associated with these units. Labs mainly involved small group presentations, facilitating discussions on various case scenarios, simulated patient assessments and OSCEs.

## **SCHOLARSHIP**

### **Peer-Reviewed Papers**

## **PROFESSIONAL, GOVERNMENTAL, UNIVERSITY AND OTHER SERVICE**

### **Professional Organizations**

#### ***Memberships***

2014 - current American Association of Colleges of Pharmacy  
2012 - current International Pharmaceutical Federation Young Pharmacists' Group  
2010 - current Pharmaceutical Society of Australia

#### **University organizations and participation**

2013 American Association of Pharmaceutical Scientists Monash University Student Chapter (general committee member)

2013 Parkville Postgraduate Association (general committee member)

2012 Parkville Postgraduate Association (acting president/fundraising coordinator); involved in organizing and chairing university seminars, social activities and welcoming new students

2009 Monash University Internship Program Advisory Committee (general committee member)

2008 Monash University Senior Ambassador

2008 Remedy International Pharmacy Student Association (Co-president, 2008)

2007 Represented Monash University in London, UK on a Pharmacy Abroad Placement

2007 Monash University Mentor Program
