RESEARCH OVERVIEW

My research program is at the intersection of emotion, stress, and health with an emphasis on the role of positive emotion. My work demonstrates how positive emotion produces favorable health advantages particularly through the mediators of physiological functioning (e.g., autonomic nervous system activity, antibody response) and health behaviors (e.g., sleep, medication usage). My programmatic line of research further extends this literature to examine the dynamics of emotions over time and the significant moderating and contextual role that stress plays in the emotion-health link. I test causal pathways by designing and implementing emotion regulation interventions. I investigate a variety of health outcomes (pain, asthma symptoms, surgical recovery) across several different stress contexts in diverse populations (children with cancer, with asthma, or recovering from surgery; adults with chronic illness). Working both in the lab and natural environments, I use a multi-method, theoretically driven approach to solve health problems by applying rigorous study designs and advanced data analytic techniques, including multilevel modeling, spline growth curve modeling, structural equation modeling, survival analysis, and nonlinear methods. A unique aspect of my work is the development of scales and methods to accurately measure health-relevant outcomes and the dynamic aspects of emotion.

Keywords/research interests: emotion, affect, affect regulation, stress, health

ACADEMIC POSITIONS

2017-present	Assistant Professor, Department of Psychology Crean College of Health and Behavioral Sciences, Chapman University
2019-present	Affiliated Faculty, Department of Anesthesiology and Perioperative Care University of California, Irvine, School of Medicine

EDUCATION

2017	Ph.D., University of California, Irvine (UCI) <i>Major:</i> Health Psychology; <i>Minor:</i> Quantitative Methods
2013	M.S., Chapman University <i>Major:</i> Health and Strategic Communication
2012	M.A., California State University, Fullerton <i>Major:</i> Psychology
2010	B.A., California State University, Fullerton Graduated <i>Summa Cum Laude</i> <i>Major:</i> Psychology

RESEARCH GRANTS

2020-2022	Kay Family Foundation Data Analytics Grant <i>Leveraging Big Data from a Population Health Program of Children with Asthma in a Children's Hospital Setting</i> Data analytics grant to catalyze research in the area of big data. Role: Principal Investigator	[\$100,000]
2020	COVID-19 Rapid Research Grant <i>Psychosocial Resources in Chapman University Student Health and Learning During COVID-19</i> Grant to conduct a longitudinal survey of the health and learning impacts of COVID-19 on the Chapman student population. Role: Principal Investigator	[\$15,000]
2020	COVID-19 Rapid Research Grant <i>Identifying Risk and Promoting Resilience in the Midst of the COVID-19 Pandemic</i> Grant to conduct a national longitudinal survey of the mental and physical health impacts of COVID-19. Role: Co-Investigator	[\$15,000]
2018-2020	Kay Family Foundation Data Analytics Grant <i>Opioid Epidemic in Children: Leveraging Big Data from Electronic Medical Records to Assess Opioid Prescription and Use in the Children's Hospital Setting</i> Data analytics grant to catalyze research in the area of big data. Role: Principal Investigator	[\$95,718]
2018-2019	Crean College Interdisciplinary Grant <i>Improving Quality of Care among Orange County Older Adults Suffering from Bedsores: Utilizing Smart Wearable Technology for a Targeted Intervention</i> Grant awarded to support interdisciplinary research. Role: Co-Investigator	[\$10,000]
2018-2021	Chapman University Faculty Opportunity Fund Grant <i>Positive Affect and Asthma in Pediatric Populations</i> Grant awarded to support asthma research at the Children's Hospital of Orange County. Role: Principal Investigator	[\$15,000]

2017	Multidisciplinary Design Project Grant Interdisciplinary research grant awarded for collaboration between the School of Biological Sciences and the School of Social Ecology. Role: Co-Investigator	[\$2,000]
2016	Newkirk Grant Grant awarded to support collaborative community research. Awarded for research that engages the community with scientific knowledge. Role: Principal Investigator	[\$8,000]
2015-2017	NIH Ruth L. Kirschstein National Research Service Award Individual Predoctoral Fellowship; Percentile: 3%; Impact Score: 14 Eunice Kennedy Shriver National Institute of Child Health and Human Development (NICHD); Grant Number: HD085712 Role: Fellow	[\$109,296]
2015	Multidisciplinary Design Project Grant Interdisciplinary research grant awarded for collaboration between the School of Medicine and School of the Social Ecology. Received funding to conduct research in the hospital setting and mentor undergraduate students in the research process. Role: Principal Investigator	[\$3,000]
2012	Ford Foundation Grant Honorable Mention	

TRAVEL GRANTS

2016	Graduate Student Travel Grant University of California, Irvine	[\$400]
2015	Society for Personality and Social Psychology (SPSP) Travel Grant	[\$500]
2014	Graduate Student Travel Grant Chapman University	[\$400]
2012	Scholarly Creative Research Grant Chapman University	[\$550]

AWARDS

2021	Award in Mentorship of Undergraduate Research and Creative Activity Awarded for exceptional work in guiding student research and creative activity that enriches undergraduate students' lives beyond the classroom. Award conveys Chapman University's mission to provide personalized education of distinction and acknowledges faculty for their efforts to provide high-impact learning experiences to our students. Chapman University	[\$1,000]
2021	Crean College Faculty Career Champion Honoree Recognize faculty who go above and beyond to embrace Chapman's career mission by advocating for student career success in internships, mentoring students in their career prospects, and helping connect students with future employers. Chapman University	[\$300]
2020	Valerie Scudder Award Awarded to faculty in recognition of excellence in teaching, research, and/or service across the university. Chapman University	[\$9,000]
2020	Unit Faculty Excellence Award Awarded to faculty demonstrating excellence in teaching, research, and/or service within their school/college unit. Chapman University	[\$1,000]
2018	Young Investigator Colloquium Award American Psychosomatic Society	[\$500]
2016	Paul and Frances Dickman Graduate Student Research Award for Community Engagement Awarded for excellence in research that benefits the local community. University of California, Irvine	[\$1,500]
2015, 2016, 2017	Graduate Student Mentoring Award Received each year for excellence in mentoring undergraduate students. University of California, Irvine	[\$200]
2015	Social Ecology Alumni Fellowship Award Awarded to one graduate student each year for excellence in research. University of California, Irvine	[\$1,500]

FELLOWSHIPS (ROLE: MENTOR)

2021	Chapman University Summer Undergraduate Research Fellowship [\$5,000] Mentored Chapman student through intensive 8 week research project examining resilience factors during the COVID-19 pandemic. Funds awarded to student (\$4,000) and mentor (\$1,000). Role: Mentor
2021	Summer Student's Fellowship Program, [\$2,000] Western University Medical School Mentored medical student through intensive 8 week research project examining pediatric asthma. Funds awarded to student (\$2,000) Role: Mentor
2020	Chapman University Summer Undergraduate Research Fellowship [\$5,000] Mentored Chapman student through intensive 8 week research project examining pediatric asthma and stress. Grant funded through the Kay Family Foundation Funds awarded to student (\$4,000) and mentor (\$1,000). Role: Mentor
2019	Chapman University Summer Undergraduate Research Fellowship [\$5,000] Mentored Chapman student through intensive 8 week research project examining child medication use and parental medication beliefs. Funds awarded to student (\$4,000) and mentor (\$1,000). Role: Mentor
2018	Chapman University Summer Undergraduate Research Fellowship [\$4,000] Mentored Chapman student through intensive 8 week research project examining parental behaviors in the post anesthesia care unit. Funds awarded to student (\$3,000) and mentor (\$1,000). Role: Mentor
2016	Mount San Antonio College NSF STEM Teacher Preparation [\$4,000] Program Grant Mentor for community college student gaining experience in science and who will become a K-12 teacher. Funds awarded to student (\$3,000) and mentor (\$1,000). Role: Mentor

|------|---|
| 2021 | <i>How to Organize Your Canvas Course Series</i>
Workshops by Chapman University's Educational Technology Services and Institute for Excellence in Teaching and Learning on how to best use Canvas (organizing modules, organizing groups and discussions). |
| 2021 | <i>Institute for Excellence in Teaching and Learning JanCon</i>
Workshops on how to best use Canvas and grade effectively with Gradescope. |
| 2020 | <i>Institute for Excellence in Teaching and Learning JanCon</i>
Teaching for today's learners workshop. |
| 2019 | <i>Institute for Excellence in Teaching and Learning Summer Academy on Teaching</i>
Two-day workshop on effective teaching methods. |
| 2019 | <i>Institute for Excellence in Teaching and Learning JanCon</i>
One-day workshop on effective teaching methods presented by the Chapman Institute for Excellence in Teaching and Learning. |
| 2018 | <i>Institute for Excellence in Teaching and Learning JanCon</i>
Reach everyone, teach everyone with universal design for learning workshop. |
| 2017 | <i>Institute for Excellence in Teaching and Learning Summer Academy on Teaching</i>
Two-day workshop on effective teaching methods. |
| 2017 | <i>Salivary Bioscience Workshop</i>
Workshop presented by Dr. Douglas Granger through the UCI Institute for Interdisciplinary Salivary Bioscience Research. Covered topics related to salivary bioscience: theoretical assumptions and models; data collection, handling, and storage; pipetting; assaying; data analysis. |

- 2017 *Course Design Certificate Program*
Four-week workshop through the UCI Center for Engaged Instruction on developing course materials and ways to engage students in active learning in the classroom.
- 2017 *University of California Health Consortium Workshop*
Two-day workshop covered grant applications, career guidance, and collaborating with medical schools. Workshop funded by a grant used to encourage collaborations between health psychologists in the UC system.

Two-day workshop covered grant funding, mentorship practices, running a lab, and faculty success training. Workshop funded by a grant used to encourage collaborations between health psychologists in the UC system.
- 2016 *Latent Class and Latent Transition Analysis*
Weeklong course offered at Dr. Todd Little's Statistics Camp. Covered theory and methods for latent class and latent transition analysis in Mplus.
- 2015 *University of California Health Consortium Workshop*
Two-day workshop covered missing data, growth curve modeling, meta-analysis, and biological assessment. Workshop funded by a grant used to encourage collaborations between health psychologists in the UC system.
- 2015 *Nonlinear Methods for Psychological Science*
Weeklong course offered through the APA Advanced Training Institute. Covered recurrence quantification analysis, cross recurrence quantification analysis, fractal time series, and spectral analysis.
- 2015 *Structural Equation Modeling (SEM) for Longitudinal Data Analysis*
Weeklong course offered through the APA Advanced Training Institute. In an SEM framework, this course covered latent growth curve modeling, latent variable factor analysis, and nonlinear models. Software used was R and Mplus.
- 2015 *Data Mining*
Weeklong course offered through the APA Advanced Training Institute. Covered confirmatory and exploratory factor and cluster analysis, factor mixture modeling as an exploratory device, classification and regression trees, random forests, and artificial neural networking. Software used was R and Mplus.
- 2014 *Mindware Technologies Heart Rate Variability and Impedance Cardiography*
Two-day psychophysiology workshop on how to collect and analyze physiology data.
