Community Pharmacy Enhanced Service Network (CPESN)
Executive Resident

Qualifications:
A Doctor of Pharmacy Degree from an ACPE accredited school of pharmacy. A licensed pharmacist possessing or capable of obtaining CA licensure. Candidates should also have strong communication and interpersonal skills and be able to interact with patients, other providers, student pharmacists, other postdoctoral residents/fellows, and faculty within the university and at the practice site. A commitment to teamwork, ability to provide clinical and classroom teaching to student pharmacists and other healthcare professional students, and ability to establish and provide exemplary patient care within a community pharmacy setting are also highly desired.

Description:
The purpose of the CPESN Executive Resident is to develop pharmacy practitioners that are actively involved in providing and developing advanced patient care services within the community pharmacy setting. In addition, this executive residency program will help the resident learn how to implement large scale change in the community pharmacy setting though active involvement in the California CPESN. The executive resident will provide patient care activities and will staff at one or more community pharmacy sites, coach Network pharmacy sites according to the Flip the Pharmacy model and help manage the California CPESN with CUSP faculty and Coordination Center. In addition, the Executive Resident will be required to teach in the didactic curriculum, precept student pharmacists on rotations, and conduct a year-long research project or another suitable project.

This position is classified as staff non-exempt and reports to the Executive Residency Program Director in the Department of Pharmacy Practice at CUSP.

Specific Tasks:
- Provide patient care and pharmacy services at one or more California CPESN sites. Help to precept students at the site(s)
- Conduct a yearlong outcomes-based research project around the CPESN framework
- Conduct site visits to pharmacies enrolled in the California CPESN, help the community pharmacy site implement their Flip the Pharmacy Change Packets
- Teach in PHRM 578 (Health Care Delivery) and other classes as assigned or requested
- Help organize and maintain the California CPESN as part of the CUSP Coordination Center

Special Conditions for Employment:
Successful completion and outcome of background checks are required prior to hire. This position requires a valid California's driver license, a satisfactory DMV record prior to hire and during employment, and ability to travel to and from off-campus locations for business purpose.
