

VISION

Become a recognized leader in pharmacy and patient safety initiatives that deliver an innovative approach to education, healthcare and research.

MISSION

Educate and develop the next generation of pharmacists and pharmaceutical scientists to improve health through engaging in team-based, patient safety-focused health care and conducting transformative research and scholarship.

STRATEGIC PRIORITIES

BUILD CUSP CULTURE

Enhance level of trust, respect, collegiality and wellbeing of all CUSP members

Maintain a supportive environment that nurtures personal and professional growth

Align all organizational structures with desired culture and mission

Create a transparent, shared governance structure with policies to support our mission and values

LEAD PATIENT SAFETY

Increase involvement of CUSP members, alumni, and preceptors in patient safety issues and initiatives

Prioritize research collaboration opportunities for optimal use and disposal of drugs and medical devices

Position CUSP to be a nationally recognized leader in patient safety advocacy

Deliver services that provide immediate value in improved patient safety efforts for businesses and institutions

ADVANCE RESEARCH

Increase the internal and external visibility of CUSP's research innovations and accomplishments

Develop a comprehensive research agenda and plan to reach the top 10 in total research funding

Ensure recruitment/retention of faculty to foster and advance the research agenda

Enhance the structure of graduate and post-graduate programs to better support research and attract high quality learners

Ensure the infrastructure is in place both short and long term to fulfill our research agenda and mission

RAISE CUSP BRAND AWARENES

Broaden industry relationships and identify specific areas of mutual interest

Collaborate with the community to identify health initiatives

Develop and maintain appreciation for Chapman collaborators and partners

Develop an engaging culture and community with our students and alumni for maintained connection

ADMIT HIGHEST APTITUDE STUDENTS

Increase the awareness of prospective students of pharmacy or pharmaceutical sciences as a career option

Enhance awareness of the Chapman experience amongst potential applicants

Reduce barriers faced by prospective students to optimize the applicant pool

DELIVER AN INNOVATIVE CURRICULUM

Offer new graduate programs in response to changes in health care needs

Initiate specialty training and diverse experiential/educational pathways for students and alumni

Explore establishment of a Bachelors of Science in the pharmaceutical sciences

Develop an IPE model for nonacademic health system schools/programs to ensure broad exposure to medical students
