

INTERDISCIPLINARY NETWORKING & FUNDING WORKSHOP

Health × AI × Social Sciences

Meet collaborators. Find funding. Start something new.

WHEN

Friday, Oct 30

12:00 – 1:30 PM

WHERE

Orange Campus

AF 206A

Join colleagues from across Chapman at the convergence of health, AI, and the social sciences. Hear about current funding, meet potential collaborators, and leave with a concrete next step toward a joint project or proposal.

What we'll do

- | | |
|--------------|---|
| 12:00 | Welcome & funding landscape
AI and Health: An Example of Interdisciplinary Funding
Quick briefings on current federal and foundation funding for health, AI, and social science research |
| 12:15 | Lightning introductions
45 seconds each: who you are, what you can offer a collaborator, what you are looking for. |
| 12:35 | Themed roundtables, two rounds
Join two of three tables, each led by a faculty discussant and matched to active funding opportunities. |
| 1:15 | Report-out & next steps
Each table shares one project idea and one funding target; sign up for follow-up proposal brainstorm. |

Roundtable themes

A

Place, Environment & Healthy Communities

Neighborhoods, climate and disasters, social determinants, aging in place.

B

Digital Health, Behavior & Mental Well-being

Wearables and phones, behavior change, mental health, substance use.

C

Health Equity, Care Systems & Trustworthy AI

Who benefits from health AI, community engagement, trust, education and workforce.

Funding briefings: **Kirsten Moore-Sheeley**, Director of Health Humanities (Wilkinson) · **Zhen Cong**, Professor and Chair of Health Sciences (Crean) · **Martina Nieswandt**, Vice President for Research

RSVP by Monday, Oct 26

Your RSVP sets your roundtable seats and your profile in the attendee booklet.
