

Exploratory Courses for Chapman University Majors

If you aren't sure what you want to major in, it can be difficult to choose classes. But this is the best time to use your selection of General Education and elective courses to your advantage. Several Chapman majors offer lower division courses in General Education. Others have support courses in other disciplines that may help you decide. Use this chart to help you choose classes. Courses may not be used in multiple GE areas. **Please note that some courses may restrict their enrollment to those students who are declared in the major or minor only. This is not a list of course availability. To declare some majors there may be an application, audition, or portfolio review process or a set up pre-requisite courses that must be completed with certain GPA requirements before being permanent in the program. Each major varies.**
