

## Exploratory Courses for Chapman University Majors

Several Chapman majors offer courses that also satisfy General Education (GE) classes. Use this chart to help you choose classes where you can explore majors and also work on GE or elective credit. **Please note that some courses may restrict their enrollment to students who are declared in the major or minor. This is not a list of course availability. To declare some majors there may be an application, audition, or portfolio review process or a set of pre-requisite courses that must be completed with certain GPA requirements before being permanent in the program. Each major varies.**

**\*= Major requires either an application, audition, review process or required GPA for major acceptance. Please see the major department.**
