

As we seek to provide a welcoming environment for all members of the campus community and guests, we are pleased to announce that we now have a permanent Lactation Station at our Rinker Health Science Campus. This Lactation Station is located at Room 183 of the 9401 Building. Chapman University recognizes the importance of helping nursing parents feel welcome on campus and wants to ensure they have the resources they need to balance work, family, and education. The Lactation Stations provide a secure, private or semi-private, restful and sanitary environment for breastfeeding or pumping. All Lactation Stations on campus are equipped with a comfortable chair, table, electrical outlet, and refrigerator. These Lactation Stations are located as follows:

- 625 W. Palm Ave, Room 133. This is a single occupancy room which requires keycard access.
- Fowler School of Law, Kennedy Hall, Room 167. This room requires keycard access and has seating for three.
- Wilkinson Hall on the lower level on the northwest corner of the building. This is a single occupancy room, which is located in a separate private space within the Women's restroom area. This room does not require keycard access, but has a lock for privacy that indicates when it is occupied.
- Rinker Health Science Campus, Irvine - 9401 Jeronimo, Room 183. This is a single occupancy room which does not require keycard access but can be locked from the inside for privacy.

Please note that reservations are not required for use of the room. You can obtain key card access to the Palm and Law School Lactation Stations by contacting the Chapman Service Desk at (714)997-6600 or email servicedesk@chapman.edu. We are happy to answer any questions regarding these facilities or any other accommodations needed for nursing parents. We are available to provide any additional information about the locations, amenities, and the protocol for obtaining keycard access; please feel free to contact:
