      ii. Philip Bui, Elena Dennis, Joseph DeCasperis: Senator Bui, Dennis, and DeCasperis completed their first phase of their student health center advocacy. v. Juliane Corpus: is working with the Curriculum Task Force with the Chapman website.

d. Community Outreach Committee

i. Arne Cvek talked to SGA senators about his electric scooter company and wanted to see if they were something Chapman would be interested in. Within our committee, we weren’t sure if these scooters would be something useful at Chapman, or how it would work, but we were thinking they could be incorporated into an event for the end of the school year to bring everyone together for a little fun! For the remainder of the evening, our committee walked around the Piazza and the Union talking with constituents about the constitutional amendment and trying to get as many people to vote as possible.

f. Outside Committees

i. Michelle Zhou- BK 201 is flexible that students can use without booking it. Working on a system where you can book study space at the last minute

ii. Alexander Ballard- spoke with Sodexo about the Skyfactor results, they were really mixed emotions about it because I think they were receptive to the ideas but at the same time they didn't want to change. I talked about vegan options and they said that they have to serve the majority of students first and they can’t change the brands they buy.

iii. Sarah Tabsh- I work on the Curriculum Task Force and we are looking to get some feedback on what teacher evaluations should look like.

D. New Business

a. Censure: Senator Adam Frey

i. Adam Frey: I apologize for missing meetings, the reason I have is because when I first ran for my seat I had scheduled trips because I joined Snow Club. I was also told that senators were allowed five absences from Chris
Nelson the previous Director of Elections. I wasn’t aware that we were only allowed four and that is why I had scheduled these trips with the club. There are no more trips so I won’t be missing anymore meetings this year.

ii. Sarah Tabsh: It is unfortunate that he has missed three senate meetings, but he does participate to the conversation when he is here. I think it is important to realize that it is only senate meeting that he missed which shows that he does not miss committee meetings or office hours. This shows that he is still working outside of senate and showing that he cares.

iii. Peter Scheinman- I agree, the only absences he did have were from senate meetings, so he does go to his office hours and serves the student body like he should. I think this was just a miscommunication from the previous Director of Elections so I don’t think we should censure him.

iv. Motion to deny the censure- Sarah
   1. Second- Juliane
   2. Approved-24 Opposed-0 Abstained-1

b. Funding Request: Chapman Global Medical Brigades
   i. Sarah Tabsh- Do you ask for funding every year from SGA?
      1. Guest- Yes we do ask for SGA for funding every year, last year only the shirts were funded not the scrubs.
   ii. Adam Frey- I think the scrubs are more important than the shirts because the shirts are only for PR purposes.
   iii. Matthew Ghan- So the total we would be able to fund $840 with the $10 limit on the shirts and scrubs.
   iv. Motion to fund $420 for scrubs
      1. Second- Adam
      2. Approved- 6 Opposed-16 Abstained-1
      3. Motion does not pass
   v. Motion to fund $840 for both scrubs and shirts- Matthew Ghan
      1. Second- Joe DeCasperis
      2. Approved-17 Opposed-6 Abstained-0
      3. Motion does not pass

vi. Motion to approve the amended changes to have committee meetings start the first week of each semester- Ian Policarpio
   1. Second- Jackie Palacios
   2. Approval is Unanimous

E. Open Forum
   a. Arming Public Safety
      i. Juliane Corpus- I’m just afraid that students who work for PSafe would be carrying a gun, but that’s a worse case scenario.
      ii. Peter Scheinman- I think they won’t arm everyone especially since they will be required to do 60+ hours of training before being armed. A majority of universities already have their officers armed on campus and they have not had any instances so I don’t think this is a problem.
      iii. Jerry Hu- I don’t think this will be necessary because OPD is just down the street.
      iv. Kunal Sharma- I think this is a really great idea because nowadays with on campus shooters, their batons and pepper spray would not protect us nor help the students and they are here to protect us.
      v. Sarah Tabsh- Having the comfort of PSafe being able to protect us is nice to know especially with the active shooter situation that happened last year. That was extremely terrifying and PSafe was not able to be our first line of defense.
