So You're Moving Out

A Quick & Easy Guide to Being a Good Neighbor

Congratulations on finishing your semester! Before you go off on that well-deserved summer vacation, we want to give you a quick list of resources and useful information.

As valuable residents within the City of Orange, you will surely earn a few brownie points with your neighbors if you follow the helpful suggestions included in this flyer—and that’s always a good thing, right?

Tossing old and damaged furniture or appliances?
Call for bulk pick-up!

Did you know that your trash collector, CR&R Environmental Services, will pick up large items right from your curb on your regularly scheduled garbage day? You can schedule this service up to four times a year per address, completely free of charge, by calling (714) 372-8272. It’s easy, we promise!
Don't forget about your four-legged friends!

Having a pet is a commitment, and if you are unable to take your furry friend with you, it is your responsibility to find other accommodations for them.

- First, try to find a temporary home for your pet. Ask friends, family, classmates and neighbors if they might be able to help you with this over the summer.
- Visit PetFinder.com to search for local animal rescue organizations. You may be able to surrender ownership of your pet to place them up for adoption. Some rescues may even be able to offer to house your pets for a period of time at no cost or a reduced cost until you can be reunited. Always ask if this is an option.
- As a last case resort, you can call O.C. Animal Care to relinquish your pet. Their phone number is (714) 935-6427.

Recycle, reduce, reuse.

You remember that old slogan, right? Some things cannot be donated like mattresses or refrigerators due to state regulations. However, e-waste, including computers and printers, can also be recycled. Contact Chapman’s sustainability team at sustainability@chapman.edu or by calling (714) 997-6658 to discuss your options.
Think 'donate' first.

We get it; you accumulate things throughout the year and often times you can’t take it all with you. Help your fellow community members in need by donating gently used items that others might be able to enjoy. Here are a few programs we recommend:

- **Clothing, Linens & Furniture**: St Vincent de Paul, Goodwill or Salvation Army. Easy scheduling online at PickUpPlease.org.
- **Unopened Food, Hygiene Items and Cleaning Supplies**: Friendly Center (FriendlyCenter.org)
- **School Supplies**: Boys & Girls Club of Orange (Contact Chapman's Office of Community Relations at driscoll@chapman.edu or **(714) 289-2097** to coordinate).

Save money - shut off your utilities.

Water, trash, electricity and gas costs can build up over the summer and cost you a pretty penny when you return in the fall. Make sure to turn off your utilities while you’re not in residence, but be sure to consult with the terms of your individual lease first.

- Discontinue water service by filling out this form
- To stop trash service, call CR&R at **(714) 372-8272**
- To turn off gas, call the Gas Company at **(800) 427-2200**
- To turn off electricity, call Southern California Edison at **(800) 684-8123**
Chapman University will be collecting items that are available to be recycled or donated from students living off-campus.

For clothing, linens, school supplies and unopened food, bring your items to the lobby of the Davis Community Center. There will be boxes set up that are clearly for commonly disposed of items. **This option is available May 15 at noon through May 22 at noon.**

For larger items that can be donated, like gently used furniture, Chapman has contracted a moving company to help transport your items to our donation centers. **Simply fill out this online form** and we will schedule you on our route on either May 22nd or 23rd.
