

Faculty Series:

Best Practices for Supporting Undergraduate Student Research & Creative Activity

The Center for Undergraduate Excellence and the Office of Research & Graduate Education invite faculty to a two-part workshop series focused on strengthening mentorship for undergraduate research and creative activity. Learn how to recruit students, mentor effectively, and support faculty–student collaboration.

Faculty may attend one session or both.

Workshop 1 - Recruiting and Supporting Undergraduate Researchers and Creative Scholars

Strategies for identifying, recruiting, and mentoring undergraduates in research and creative activities. Faculty will learn about the 291/491 course program, available funding opportunities, and resources that support both faculty and student success. This session will equip faculty with essential resources and strategies to support student scholars.

Workshop 2 - Mentoring Undergraduate Researchers: Tools & Best Practices

Best practices for mentoring undergraduates in research and creative activities through mentoring compacts, individual development plans, and goal-setting strategies, while hearing insights from experienced faculty across colleges.

TUESDAY, FEBRUARY 17, 3-4 PM AF209C

THURSDAY, MARCH 12, 2-3 PM AF209A
