Professor Bill Tsutsui is an award-winning scholar and teacher, an experienced academic leader, and an outspoken supporter of the public humanities, international education, and more inclusive, accessible colleges and universities. He researches, writes, and speaks widely on Japanese economic and environmental history, Japanese popular culture (especially the Godzilla movies), Japanese-American identity, and issues in higher education. He is highly opinionated about BBQ, proud to have once driven the Zamboni at an NHL game, and slightly embarrassed to be Level 40 in Pokemon Go.
