

## General Education Program Inter/Multidisciplinary Cluster

Students complete a total of 12 units in a course cluster outside their designated degree program or major. Students who complete a second major or a minor fulfill this part of the GE program.

The Inter/Multidisciplinary Cluster provides students an opportunity to explore an area of interest from an inter/multidisciplinary focus: four related courses outside the student's designated degree program or major. At least two courses in the cluster must be upper division.

# Major in Art History

*Regardless of time and geography, art and architecture have been used to explore, express, and shape private selves and public lives. In an increasingly disposable world and even after centuries, some works of art have maintained their fascination. They continue to speak to us, although what they say may change. Understanding how visual and material choices create meaning, and how those meanings express and affect the world, is the pursuit of art history.*

Enroll in the BA in Art History and learn what it means to really see, from the past to the present.

Art History majors work with their faculty advisor to design a program of study that reflects their personal and professional interests and inclinations. They have the opportunity to work closely with faculty specializing in the fields of Ancient Mediterranean culture; cultural heritage protection, and the archaeology of human activity in space; Latin American visual and material culture; East Asian art; European and American modernism; Russian and Soviet art; history of photography; Black American art; and contemporary art. After completing 18 credits of lower-division course work, students select one course in each of four areas (Ancient, Early Modern, Modern, and Contemporary Art) as the basis for developing a cluster of upper-division courses. The degree's capstone course is the Senior Thesis, a self-directed research project that formulates an original thesis. Graduates may pursue a wide range of arts-related professions or go on to further training at the graduate level.

Interdisciplinary study is an integral part of art historical practice and is highly encouraged in our program. Students may explore a range of topics, concerns and methodologies, from historical culture, formal analysis, and iconography, to material culture, social history, and gender studies. Students are also encouraged to take advantage of such exciting opportunities as study abroad courses and internships at one of the many museums, galleries, and arts related businesses (auction houses and galleries, art appraisers, conservation studios) in the Los Angeles and Orange County region.
