20 DESIGN | DESIGNING
24 SYMPOSIUM | BEYOND BOUNDARIES

How your passion and values can be part of your design practice.

The Department of Art's Margo Pawell Design Symposium brings together diverse experts to discuss topics in graphic design. The symposium allows our students and the regional design community to gather and partake in meaningful discourse.

Please join us for an evening with notable designers, researchers Tasheka Arceneaux-Sutton and Silas Munro, and an alum panel. Arceneaux-Sutton and Munro will discuss how passion and values can be part of your design research and practice.
